

## PUTTING THE SOCIAL IN SOCIAL DISTANCING

Since starting our adventure into winegrowing, my family and I have been inspired by the opportunities that exist for wineries to give back and the difference our charity partners make in their communities. We've designed our virtual tasting experience to help support our team here in Napa and *Operation Healing Forces* during this unique period of uncertainty.

These are strange times where the traditional approach to fundraising through fellowship in large groups is difficult. In developing this program, our goal is to give folks an outlet, a release, a moment of unity, in support of a great cause until we can resume fundraising more traditionally.

We're looking forward to virtually hosting you and yours and are excited for the day we can all get together in person again over a glass. We can't express how grateful we are for your support and partnership. Even though we're all forced to stay apart, we're all in this together.

Cheers!

## VIRTUAL TASTING EXPERIENCE

Our Virtual Tasting Experience is pretty simple. We designed it to be the next best thing to being at the winery. For a sneak preview, go to [Italicswinegrowers.com](http://Italicswinegrowers.com).

Select a flight and we provide the rest! We will host your experience LIVE over Skype, Zoom, or FaceTime. Have friends spread out across the neighborhood or country? Our virtual tasting is a great way to get together with friends and family, and to reunite past participants from our OHF Retreats.

& ITALICS

In January 2020, Italics Winegrowers donated their beautiful Estate House for 4 Special Operations couples to experience the retreat of a lifetime.

One of the couples, Joe and Megan, are a dual military couple; Joe is a Green Beret with over 20 years of service, and Megan is currently serving in the Air Force with over 16 years. After the experience, Joe wrote in a thank you letter to Taylor Martin, “Your gracious support for the foundation rooted the platform for Megan and I, along with the other couples, to reconnect in a magnificently beautiful setting with the abilities to fulfill dream travels, learn, and grow within our relationships and families”.

OHF takes couples like Joe and Megan, connects them with their brothers and sisters in the Special Operations Community and creates bonds and friendships that last a lifetime. The Napa Retreat is another example of how OHF facilitates these opportunities along with the assistance of our generous home donors, like the Martins.

Our continued partnership with Taylor and Sara Martin and Italics Winegrowers will enable OHF to conduct yearly Napa Valley retreats so that more SOF couples can be positively impacted.
